A written protest had been prepared on behalf of Nichols and Ryan. It was decided, however, to strike Ryan's name from the decided, however, in strate My and to him simply document, and to make with regard to him simply an oral statement of the situation. The protest calls attention to irregularities in the returns from the town of Camillia, and then continues: "The election law of Camillus, and then continues: provides that where an error has been made by the board of inspectors in certifying the result of election and the error is cierical, the return should be sent back to the board of inspectors to be remedied. This I would suggest be done in the various towns where imilar returns have been made. It is unnecessary to discuss this view, other than for the purpose of seeing to it that a complete and correct return is certified to the higher officials of the State. I am informed it will be claimed that what I speak of is a techni irregularity, but if it is and the ballot should be held valid because it was a mistake, then you might well do away with the whole ballot act; for this defect strikes right at the foundation of the act, which secrecy. ALDERMEN BECOME CANVASSERS. DEMOCRATS MAKING DESPERATE EFFORTS IN QUEEN'S COUNTY.

The Board of Aldermen went before the acting County Clerk yesterday and were sworn in as a Board of Canvassers. J. H. V. Arnold was made chairman of the Board. Their duty is officially to count the votes cast in the recent election. The new Board ad-

journed until to-morrow morning.

The Brooklyn Board of Aldermen met as a board of city canvassers, and began the official canvass of the vote cast for city officers last week. The Board of Supervisors met yesterday and adjourned until to-day begin the canvass of the votes cast for State and county candidates.

The Queens County Board of Supervisors met yester day at Jamaica as a Board of Canvassers. Unusual interest was manifested in the Board's deliberation on account of the dispute over the election for Assembly In the 11d District of Queens County between James McKenna, Democrat, and George L. Weeks, Republican. There are three regular Democratic and Republican members of the Board, as well as one Independent, the latter being Supervisor Duncan, of

Surregate A. N. Weller appeared as counsel for defendant, and protested against the Board granting a certificate to Weeks. Mr. Weller alleged that there had been irregularities in several districts in Hempstead and Long Island City. Mr. Weeks, who is represented by L. N. Manly, of Long Island City, and two other lawyers, showed that on the face of the returns he had a clear plurality in the district of 329 over McKenna. The Board ordered McKenna's counsel to file a regular protest, which will be done this morning. Congressman James W. Covert, it is expected, will argue the matter, and direct McKenna's side of the contest. McKenna also declares that Weeks was not dent of the Assembly District, and that he lived only twenty-four days in his own election district before election. McKenna will seek to show that there were errors and omissions on the face of the certificates of the inspectors of election in some districts; also that there was illegal voting, and that a number of votes called scattering in the certificates should properly have been credited to McKenna. Mr. Weeks denies these claims made by McKenna, and says that he was at the time of his election a duly qualified elector of the State, and was therefore entitled to represent the district in the Assembly, whether he was a resident of the district or not. The Weeks men say that all the alleged irregularities are merely tchnical in their nature, and that the statement of the vote in the

The Richmond County Supervisors began the canvass of the votes at Richmond. A large crowd of officials and politicians of both parties were present, as it was expected that a protest would be made in regard to the election of Edward M. Muller to the office of Sheriff, by his opponent, John L. Daley. A squad of policemen under the command of Captain Blake, were stationed about the County Building, as trouble was expected. Mr. Daley was present with a bost of his friends, but made no sign of contesting Mr. Muller's election. The returns, as received on electioning that Police Headquarters, gave Muller 116 majority. The soard will issue a certificate of election to Muller.

THE RESULT IN MASSACHUSETTS.

SENATOR HOAR SHOWS HOW ALLEN'S CANDIDACY

HELPED GOVERNOR RUSSELL. ces.er, Mass., Nov. 10.-In an interview with a Gazette" reporter to-day, senator George F. Hoar, reviewing the result of the late election, said : mor Russell has been elected by a plurality a little less than that of last year, with a much larger vote and much greater effort on the part of his opponents. The rest of the Republican ticket has been elected, and the Republicans have carried the Legislature by an increased majority in the House and have a majority in the Senate, which was even last year. It seems clear, therefore, that so far as a choice between parties is oncerned, the people of Massachusetts prefer the Republican party, and no.hing has happened since last year to diminish the preference. A preference of the Republican party means a preference of its essential doctrines. We must therefore find some explanation for the election of Governor Russell other than that supposing Massachusetts to be a Democratic State.

"I think the result in the matter of Governor is due to two causes. First, Mr. Allen's votes and opinions on some questions which the laboring men of the State are greatly interested in, were such as many disapthe record of Mr. Allen on these questions, and undoubtedly influenced a good many voters.

But this is not the principal reason that is to be found in the opposition of a great many excellent men who are Republicans, who favor a protective tariff, and expect to be Republicans in the future. But it is unquestionable, in my judgment, that a large number of persons deemed Mr. Crapo the foremost man in ability, in National reputation, in length of public ser vice and in a profound comprehension of the important interests of the State, who could have been induced to accept the nomination. They thought that the choice of a candidate had been made without regard to these considerations. They thought that the question of

THE CONTEST IN CONNECTICUT. THE SUIT FOR THE STATE TREASURERSHIP SET OVER UNTIL DECEMBER 8.

New-Haven, Conn., Nov. 10 .- The case of Marvin

H. Sanger against E. Stevens Henry for the State Treasurership was down for trial in the Superior Court before Judge Thayer this morning. Ex-Judge Stoddard and Mr. Hammersley, of Hartford, and State-Attorney Doolittle were on hand, representing the plaintiffs, and Messrs. Hyde and Gross, of Hartford, the defendants. A subpoena had been issued yesterday afternoon on Secretary of State Walsh, sumnoning him to appear in court to-day with the official election returns. The subpoena was served at 2 o'clock. By agreement of counsel Secretary Walsh's chief clerk, R. B. Hinman, appeared in Mr. Walsh's place. But he did not bring the election returns,

much to the disgust of the Democratic counsel. Exindge Stoddard demanded an explanation, and Clerk Illinman was ordered to take the stand, when he was closely questioned by Mr. Stoddard. Mr. Hinman said the official returns were not in the Secretary of State's office. They were carried off at 5 o'clock vesterday afternoon by Andrew P. Gates, the assistant clerk of the House, who demanded them on thi authority of that body. Mr. Hinman was asked if he was not told to take those papers with him to New-Haven, which question he answered in the negative. Mr. Stoddard asked for a caplas for Gates, and charged that there was an attempt to obstruct the court in its business. He said that a clever Republican trick had been planned and worked successfully. State-Attorney Doolittle charged that the papers had been stolen. It was positively neces-

sary to have the official election returns in court to Judge Thayer said he had been looking over pleadings in the case at the bar and found the questions raised to be similar to those in the Morris and Bulkeley suit, which he had reserved for the Supreme Court. That case had been assigned for argument on November 27. That being so, he did not think it advisable to pass upon the case at the bar until after the Suprema Court disposed of the Governor's case, and he continued the Sanger-Henry case until December 8.

THE SENATE ADJOURNS UNTIL NEXT MONTH. Hartford, Nov. 10.—The Connecticut Senate met at 2:30 to-day. Only two Senators were absent. THE OFFICIAL CANVASS OF IOWA.

Des Moines, Iowa, Nov. 10.-An official canvass of votes was made yesterday by the county boards of supervisors. Returns are coming in slowly. "The Register" has heard from about sixty counties out of ninety-nine. Boles's plurality will be between 8,000 and 9,000. In the same counties Sabin, for State Superintendent of Instruction, ran 6,000 ahead of Wheeler (Rep.) for Governor. If this rate is kept up sabin will be elected by a small placelity. The other

Republican candidates on the State ticket it is thought cannot pull through.

The Senate will have twenty-five Democrats, twenty-four Republicans, and one independent. The president will give the casting vote on a tie. The House will have forty-seven Democrats, and probably fifty-three Republicans.

FLOWER GIVES CHAPIN SOME POINTS. Mayor Chapin, of Brooklyn, has received a congratulatory letter from Governor-elect Flower, who says of Mr. Chapla's election to Congress: "You will find it a much wider field of usefulness than any which you have occupied, and I have no doubt you will fill it to the satisfaction of your constituents. Upon the action of the present Congress will depend the election of the next President. If it succeeds in reducing the expen ditures of the Government by \$100,000,000 or more, thus making a surplus by which the next Administra-tion can raise the tariff, you will have given us an issue which will win before the people. You will find the revenues of the Government mortgaged to the exno man knows how much more for shipping bountles, and five or six millions for public buildings. be the more credit to you and your colleagues if you can show at the end of the first session that economy has been the watchword of the Democracy, and an easy victory will await us in 1892.

KNIGHTS OF LABOR IN SESSION.

Toledo, Ohio, Nov. 10.-The Knights of Labor convention met this morning at 10 o'clock and the fore-noon was spent in routine business. General Master Workman Powderly was received with rounds of applanse. At the afternoon spasion, the report of the committee on law was presented and laid over to hear Mr. Powderly's annual address, which was ordered printed and distributed to the members before being General Secretary-Treasure given to the public. General Secretary-Treasurer Hayes next reported. He complained that some as semblies send in incorrect reports to the general offices to escape their full taxation, and asked that means be devised for preventing this. The total annual receipts were \$60,685 22; expenditures, \$102, 474 36; balance on hand at beginning of year, \$13,053 13; balance now in treasury, \$10,263 79. The general executive board's report states that there is a cowing feeling in England and other countries in favor autonomy, and recommends this should be granted. A number of letters were read from the order in south Africa and New-Zenland, where it is growing rapidly. The board has prepared a full statement of the difficulty with the Government Bureau of Engrav-ing and Printing at Washington, which will be distributed to delegates. The report of the board on the extradition of Hughes, the master workman of the clothing cutters, by Governor Patilson of Pennsylvania, on a charge of conspiracy preferred by the Rochester clothing manufacturers, condemn's the Governor's action as extra-legal and in defiance of all precedents. The report congratulates the order on its membership of 270,000, but cautions against reckless admissions This evening a formal reception was given the

officers and delegates at Memorial Hall. The address of welcome was by Mayor Emmick; response by Mr. Powderly. Other addresses were made by citizens and members of the order.

THE SITUATION IN CHILI.

CHARGES MADE BY A CORRESPONDENT.

WHAT HE SAYS IN " THE LONDON TIMES" ABOUT MINISTER EAGAN, COMMANDER SCHLEY

AND THE AMERICAN CONSUL. London, Nov. 10.-The Santiago correspondent of The Times" telegraphs a long diatribe against false Chillan news sent by correspondents or invented in America, taking his text from the report of the blowing up of the United States cruiser Baltimore. He

"Since the arrival of American newspapers here we have tend, in addition to the scandal created by rowdy diplomacy, an unseemly squabble among American correspondents respecting the authorship of faise tele grams published in America. These quarrels tend to place America in an unenviable light. It is necessary again to call attention to the disregard by the American officials here of the pacific orders alleged to have been sent from Washington. These orders give the text of ostensible instructions previously sent o maintain the strictest neutrality during the Chilian civil war. Owing either to their knowledge of the secret in-

tentions of the Washington Cabinet or to other motives. Minister Egan, Commander Schley and the American Consul continue to show the bitterest animosity against the Congressionalist Government publicly. It is notorious that Minister Egan's attitude and acts continue to be such as may provoke a rupture of the friendly relations between the two countries Viewed in connection with later events, Commander Schley-s landing sailors on October 16 ceases to bear the aspect of thoughtless imprudence. The preparation of the Baltimore for action at midnight in friendly port was an insult to the dignity and good faith of Chili, and more so still are the declarations Commander Schley has just made in several ters that war between the United States and Chill is inevitable. The American Consul at Valparaise is spreading similar reports, and he adds that a United States squadron is coming here. The conse quence of this official fillbustering is that the war ships of other nations, which were about to leave Chill, have been ordered to remain. These deliberate provocations will not make the Chillan Government abundon its correct judicial attitude. There is, I recat, absolutely no hostile feeling in Chili against the United States; but such a feeling may be brought about unless more prudence be displayed.

The captain of the Itata speaks with enthusiasa of the public sympathy he received in California, in of the public sympathy he received in California, in strong contrast with the vexatious conduct of the American officials. The captain of the Esmeralda reports that direct Washington orders prevented him from coaling at Acapuico, and thus the Esmeralda was prevented for weeks from assisting the Congression-alists.

"Minister Egan has already congratulated Admiral Montt upon his election as President. This is a diplomatic blunder, Admiral Montt being only a candidate for the Presidency. It is unfair, however, to attribute this pardonable mistake to Minister Egan's desire to further interfere with the affairs of Chill."

IS BLISH HAUNTING HIS HOTEL?

PEOPLE SAID TO HAVE HEARD RAPPINGS AND

SEEN HIS FORM OUTLINED ON A CURTAIN. Peekskill, N. Y., Nov. 10.-The Eagle Hotel, in chich Charles F. Blish was shot dead by Henry L. Betts, is alleged to be haunted. It is said that there have been almost continual rappings and mysteriosi noises in the building ever since the day of the tragedy. On Sunday night there were a number of people in the office where the bullet pierced Blish's heart. party were Coroner Sutton, several of the employes of the hotel, a couple of drumners, the chief of police and one of his officers. Not long after the village clock tolled the hour of midnight their attention was attracted to a series of rappings on the front door. One of the party immediately jumped from his seat and opened the door quickly. No one was in sight and no contrivance of any sort that could produce rapping was on or near the door. As soon as the door was shut the rappings were repeated. Another search vealed nothing. The rappings ceased for about five minutes, when there were taps upon the window pane When the curtain was pushed aside three of the party peered through the glass, but could see or hear nothing.

The next thing that attracted the attention of the party brought cold heads of perspiration to their foreseads. Reflected upon the curtain of the window at which the tappings had been was the outline of a figure which those in the room who knew the murdered man unmistakably recognized as his. The figure re-mained there about ten seconds, and as one of the party jumped toward the curtain, there were loud rap pings on the glass, followed by tappings on the door,

and the figure disappeared. It is asserted that several of the girls in the house, as well as the male employes, have said that they ave seen the ghost of Blish stalk through the morning. A peculiar story leaked out to-day, which will be told the Grand Jury when it considers the Blish tragedy. It was that Bhsh received warning that he was in danger of some terrible calamity shortly before noon on the day that he was shot dead. It was in the nature of a telephone communication from an unknown person. The message was this: "You are in great danger. Your danger will arrive on the noon train. Leave Peekskill at once. Do it for your life."
As he left the telephone his face was blanched, and he paced the office floor nervously. He remarked that he would go immediately to New-York. Later he reconsidered this determination and said he would remain in Peekskill and face his danger, whatever it might be.

BETTS INDICTED FOR MURDER. Henry L. Betts, of Brooklyn, was indicted yesterday at White Plains for murder in the first degree, for having shot and killed Charles F. Blish in the Eagle House, Peckskill, on Monday of last week. D. Wiley Travis, his counsel, will press the cese for trial at the Court of Oyer and Terminer which convenes here next month. The defence will be insanity.
